

Lockheeds Constellation (Enthusiast Color)

Elegant and graceful, the curvaceous Lockheed Constellation remains one of the most sought after aircraft on today's airshow circuit. Designed by Lockheed's legendary Kelly Johnson, the Connie's triple tails are reminders of the glory days of the big propliners. Piston-powered and propeller-driven, the Constellation, Super Constellation and Starliner series of aircraft are profiled here in both civilian and military dress, and in domestic and foreign markings.

Synopsis: Elegant and graceful, the curvaceous Lockheed Constellation remains one of the most sought after aircraft on today's airshow circuit. Designed by : Steve Pace : Lockheed's Constellation (Enthusiast Color Series) : Motorbooks International : 1998
