

Invisible Surveillance

Invisible Surveillance is back ... Now the high tech spying technology is spiraling out of the CIAs control. The only one who can stop it is Callie Hunter, along with her CIA fiance, Jack Oakes. But Jack has a secret that a madman is using to destroy his credibility. This, combined with disappearing data, missing evidence files, and falsified records, halt all their efforts and test their faith to the breaking point. Can Jack redeem himself, or will he lose everything he holds dear? Will he and Callie be able to stem the tide of this espionage destruction? Finding answers wont be easy ... Not everything is as it seems.
