

Candy Cain

Candy is on top of the world. Shes a high priced corporate lawyer with expensive cars, time on her hands, and money to burn. Although, she has no one to burn it on, except for a yearly ritual of buying toys and treats for the needy at Christmas time. Cain is an egotistical enigma. A very deprived and hurting enigma, who feels wishes are for fools. A car accident leaves them stranded together, and the two have no choice but to warm each others cold bodies, lest they freeze to death. As the temperature dips outside, the heat begins to sizzle inside. Candy and Cain, though worlds apart in society, begin to feel perhaps they have more in common than either could ever wish for. Will they both discover the miracle of Christmas wishes isnt just for the very young?
