

There would appear to be significant interest from railway enthusiasts, frequently modelers, for detailed information on the subject of historic technical data and illustrations for withdrawn classes of diesel and electric locomotive and multiple-unit, including the usual dimensions, but also covering general information such as delivered liveries and the class progression to the model railway of today. Following the current Recognition format, this book sticks to the established A5 style and gives every class of diesel and electric loco a spread, covering full technical details, followed by illustrations showing vehicle ends, both sides, and an action picture of the class detailing livery and covering any obvious modifications. Colin Marsden provides a variety of wonderful color and mono illustrations, with some additional detailed images showing equipment positions. The entire modern diesel and electric loco fleet is covered in this title in great detail and beautifully illustrated with many previously unseen images.

Road Trip to Passion: Elloras Cave, Devi: Tales Of The Goddess In Our Time (Penguin originals), Winning Virgin Lust [Winning Virgin 3], Au milieu de nulle part: Ici et Ailleurs (Volume 1) (French Edition), Breaking Point [Sunset Point] (Siren Publishing Menage Amour), Content Rich: Writing Your Way to Wealth on the Web, The Last Days of the Titanic: Photographs and Mementos of the Tragic Maiden Voyage,
