

# Cyber-Investing: Cracking Wall Street With Your Personal Computer

Use your PC to pick stocks like the pros and yield significant returns in any market! Stock market guru David Brown knows plenty about computerized investing. His immensely popular on-line financial information firm, Telescan, provides tens of thousands of individual investors with stock quotes and up-to-the-minute data on every exchange in the world. Now, in Cyber-Investing, he shows both beginning and seasoned investors how to unleash the awesome potential of their PCs to pinpoint and follow up on stock opportunities the moment they happen. Armed with the powerful investment software featured on the disks along with Davids proven strategies for using them, you can use your PC to:

- Streamline your investment decision-making process
- Spot extraordinary stock opportunities
- Determine the financial strength or weakness of any company
- Pinpoint undervalued stocks on any domestic or foreign exchange
- Use state-of-the-art analysis tools to find out when to buy and when to sell
- Manage your portfolio
- Generate significant returns year after year after year!

Written in a lively, accessible style, packed with easy-to-read charts and tables, and featuring a gold mine of sophisticated investment software, Cyber-Investing makes it easier than ever for novices and seasoned investors alike to pick stocks like the pros!
