

Filthy Foreign Exchange Book 2

The conclusion to Echo and Kingstons story. When Echo Kelly is invited on a backpacking trip throughout the UK, she jumps at the once-in-a-lifetime opportunity, refusing to let one fleeting past exchange stop her. At least, that's what she's convinced herself of, until the moment she sees him again. It's not the one-time run-in she was expecting, and therefore prepared to handle. Instead, it's an announcement she never saw coming: she's the tour guide. She's got no backup plan for that. ***** Kingston knew what it meant the moment Echo accepted the offer. And when he lays eyes on her, standing in his childhood home, her fate is sealed forever. There's not a damn thing that will stop him from finally claiming what's always been his. Her. Not everyone gets a second chance and Kingston Hawthorne sure as hell isn't going to let his slip away.
