

The Sleigh Maker (Christmas)

Gavin Frost is Santa's sleigh maker. He's as happy as a man can be while living with regret. He wishes he could take back events of seven years ago; the ones that caused his fiancée to storm out of his life on Christmas Eve. Prudence Berry was engaged to Gavin. Her obsession with climbing to the top of her union (Elves Local #101) wasn't as much to blame for their breakup as Gavin's philandering. When the two of them are forced to work together on Christmas Eve, they discover that the spirit of the holiday doesn't just work on children. There's magic afoot! Gavin and Pru are about to discover the real meaning of the season in each other's arms.
