

Secrets and Innocence

** This book has been updated to incorporate BOTH the *original* tearjerker ending AND the *HEA* (Happily Ever After) ending. You will have a choice on which ending you prefer to read at Chapter 20 (or you can read both if you so choose). Michael and Elizabeth were two children who were brought together by fate. Elizabeth was adopted into the Weston family at the age of three, and Michael, at six years old, immediately bonded with his new little sister. The two grew up together like most siblings except for one thing somewhere along the way they fell in love with each other, yet neither could allow the other to know their inner-most feelings, their most intimate desires. They each held their forbidden secrets to themselves, especially in a time when their bodies were developing, and their sexual and romantic cravings were escalating steered by their raging hormones.

This is a poignant love story of childhood innocence, coming of age, and forbidden desires. *WARNING*: There are explicit scenes of children playing doctor, masturbation, and other coming of age situations (which many children do in real life). They DO NOT have sex until they are adults. If sexually explicit content, and children discovering their bodies and sexuality is uncomfy for you, DO NOT buy/read this book. For the open-minded and NOT for the faint of heart. Word count: Approx. 56,600
