[Menage Amour: Erotic Fantasy Menage a Trois Romance, M/F/M] In the third entry to the Dream Weaver series, Suz discovers she is pregnant on the eve of her trip to Scotland with Penn and Liam McKenzie. When her men find out, they immediately propose, though a triad marriage is illegal in North Carolina, and Suz refuses to choose between the two. When they arrive in Scotland, an old flame of Penns wants him back and challenges Suz for his hand, even though he has no interest in her. As the Vernal Ball draws closer, the trio conduct Dreamers Dell, Inc. business as well as visit with family and try to figure out how to deal with the challenge put to Suz. Since no women have ever met in a challenge no one knows how to answer the threat. And then someone shoots Suz. Will Suz be able to hold onto her role of Dream Weaver? Will the shawl meet with Mother Natures approval? Will the trio find a way to tie their lives together as a triad? \*\*A Siren Erotic Romance
