Complete Version Now Available With Kindle Unlimited! The Leopard of Sunset Valley ASIN: B00YZOHN3E Split second decisions changed their lives, but can they make the changes stick? Master Architect Jake Masterson can design and build anything and is highly sought after for his talents. Yet in the relationship department, Jake has struggled to build anything that doesn't ultimately crumble to the ground. In a last ditch attempt to find love, he takes a wild gamble on a unique online dating website, which according to his best friend, is perfect for a reclusive leopard shifter like himself. Confident and curvy, Ella Gordon has finally decided to take control of her own personal life. She's ditching the bad and hoping to usher in some good with the new. She knows her own weaknesses though, one of which happens to be her now ex-boyfriend Charlie. Intent on leaving him behind for good, she decides to plunge into the near unknown for her, using an internet company to secure a date in the nearby town of Sunset Valley. When the two of them meet, it's instant electricity. Teenage-like awkwardness and visions of the future flitting through their heads is all part of the wild ride they've signed up for. Unfortunately for Ella, she didn't read the fine print, while Jake assumed she knew his true nature because of it. Can the two of them right the unstable foundation that marked the beginning of their relationship, or will an explosive revelation do away with all the progress they've made? It's never too late to make the right decision. ----- This series is complete. All parts available for free via Kindle Unlimited.
