

The Rock Star Next Door #1

From the USA Today bestselling author Starla Cole. He's a rock star. Rage McDaniels never expected to hit it big. A record label. A confusing contract. And a whole team relying on him to deliver. The lifestyle is wild, and his band mates Metal and Crash are already caving with the pressure. Rage is doing all he can to keep the ground beneath his feet. He needs someone he can trust. She's the girl next door. Jewel Roberts remembers Rage as the annoying brat who was her younger brother's friend. When Rage calls out of the blue and asks her to travel from London to California to use her international business degree to help him figure out what sort of mess he's gotten into, she expects the same skinny adolescent who trailed after her when they were both in high school. But her arrival at the opening concert of his tour is a shocker. Rage isn't a boy anymore. Not even close. He's charming, handsome, and successful. But one thing hasn't changed: he still only has eyes for her. The tangled web. But this gig isn't everything it seems. The producer has sent his own daughter to keep watch over his rising star. And the press is all over the hot new rock god. Rage and Jewel surely aren't ready for the pressures that would blow apart even a strong relationship. Jewel is pretty sure that it's a bad idea to get mixed up with the rock star next door. The Rock Star Next Door is part one of a three-part series. This volume is 15,000 words, or about 75 print pages.
