

Geoffrey Peirce has always been a man with a strong commitment to his work, but when his beautiful young fiancée informs him that she plans to end their engagement as a result of his long hours he decides upon a bold gamble. Nicole is stunned when she hears Geoffrey's proposal. If she will spend a week with him at the four-star resort he co-owns in order to give their relationship a fresh start, then afterwards if she still wants to break things off he will make sure she is set up financially for the rest of her life. There is only one catch: during their week together, she will be expected to submit to him completely, and failure to obey him will earn her a sound spanking on her bare bottom. Though she is shocked to discover that he has hidden this side of himself from her throughout their engagement, Nicole cannot help being intensely aroused by the thought of surrendering herself to both punishment and pleasure at Geoffrey's hands. She accepts his offer, and soon enough she is blushing crimson and quivering with desire as he teaches her what it means to belong to a dominant man. But when the week is up, will she take the money and run or stay by his side and delight in being mastered by the millionaire?
