

Wild Honey

Aspiring actress Sasha McCleod has the opportunity of a lifetime: a starring role in a visionary filmmaker's comeback feature, but there's a catch. Sasha has always been more than a passing resemblance to movie star Leslie Parrish, and has been turned down for role after role as a result. She expects the same at her next audition. She's been told it's a secret project and finds herself standing on a faintly lit stage, staring into a black void illuminated only by the flicker of a cigarette and a stranger's seductive voice, probing her. Casting Sasha will save cult director Marc Andre Renaud's film, but he resists her, unsettled by her likeness to Leslie, with whom he has just ended a heated relationship. To announce Leslie's departure would mean an end to the film, so he is forced to offer Sasha the role, and invite her to participate in a dangerous charade, as both his star and lover. It's a role Sasha cannot refuse, and as she sinks deeper and deeper into her impersonation of Leslie, she is led into ever more provocative territory with Marc. This ebook features an illustrated biography of Suzanne Forster including rare photos from the author's personal collection.
